SHIVANI DUBEY

Painting, according to Wikipedia, is the practice of applying paint, pigment, or other medium to a surface.

The medium is commonly applied to the base with a brush but other implements, such as knives, sponges, and airbrushes, can be used.

Painting describes both the act and the result of the action. Paintings may have for their support

Take a peak into the life of a young budding artist..

surfaces as walls, paper, canvas, wood, glass, lacquer, clay, leaf, copper or concrete, and may incorporate other materials including sand, clay, paper, plaster, gold leaf as well as objects.

Painting is a mode of creative expression, and the forms are numerous.

IDENTITY

Drawing, gesture, composition, narration, or abstraction, among other aesthetic modes, may serve to manifest the expressive and conceptual intention of the practitioner.

Paintings can be naturalistic and representational, photographic, abstract, be loaded with narrative content, symbolic, emotive, or be political in nature.

EXPERIMENT

If you're undecided on which path to take, try several paths and then decide which one is the best fit.

Ralph Waldo Emerson said, "All life is an experiment. The more experiments you make the better."

WORK ON PERSONAL PROJECTS

Simeon Kondev once said, "I feel like every project I work on is a dream project, so long as I am learning."

What did I do
to come here?
I, as an artist,
am here to live

One rarely falls in love without being as much attracted to what is interestingly wrong with someone as what is objectively healthy, says philosopher Alain de Botton.
